

Berco[™]
THE HEART OF YOUR HOME

MATERIALS & FINISHES

The Surface.

The complete library
Berco · 2026 Edition

A finish is not a colour. It is how a surface behaves.

This is the complete library – 202 finishes, grouped by the material each one is actually made from, because that is what decides how it wears, where it belongs, and what it costs to put right if it is specified into the wrong room. Colours here are a guide. The physical sample is the decision.

Contents

01	How a door is built	04
02	Part One – The Selection	05
03	Part Two – The Complete Range	16
04	Double-Faced Melamine	17
05	Vacuum-Formed & Pre-Finished Film	20
06	High-Gloss UV	22
07	Baked Lacquer	23
08	Further surfaces	24
09	Choosing, and what to expect	25

Three layers, one decision.

Nearly every door in this book is the same three things: a core, a face, and an edge. The face is what you see and what this book shows. The core decides how the door carries weight and handles moisture. The edge is where cheap cabinetry gives itself away first.

The core

11-layer plywood. Carries the load, holds the screw, and decides how the door copes with a wet room.

The face

Melamine, film, lacquer, UV, veneer, leather. What you see, touch and clean – and what this book is about.

The edge

Banded, wrapped or laser-bonded. The first thing to lift on a poor door, and the last on a good one.

PART ONE

The Selection.

54 finishes we would put in front of you first — the range edited down to what actually works together. Everything we hold follows in Part Two.

FAMILY 01

Double-Faced Melamine

A hard-wearing decorative surface pressed onto board. The everyday workhorse — scratch-resistant, colour-stable, and the broadest palette we carry.

Double-Faced Melamine

18 MM BOARD CORE · DECOR PAPER FACED BOTH SIDES · PVC OR LASER EDGE · E1

Almond White
wardrobe · wood door

Cloud Grey
kitchen

Dusk Grey
wood door

Quarry Grey
kitchen

Sandstone

door

Pale Bilbao
kitchen

Sandalwood Elm
wardrobe

Vienna Walnut
wardrobe

Smoked Oak
wardrobe

FAMILY 02

Vacuum-Formed & Pre-Finished Film

A film wrapped over a shaped MDF core. Seamless around profiles and edges, which makes it the choice for shaker and detailed door styles.

Vacuum-Formed & Pre-Finished Film

MDF CORE · PVC / PET FILM · WRAPPED EDGES, NO VISIBLE EDGE BAND

Porcelain White
wood door

Champagne White
wood door

Silk White
wood door

Brocade White
wood door

Trellis White
wood door

Rattan Weave
wardrobe

Alaska Oak
wood door

Nordic Oak
wood door

California Walnut
wood door

Obsidian
wood door

FAMILY 03

Baked Lacquer

Sprayed and oven-cured colour on an MDF core. The deepest, most even colour we offer, and the family to specify when the colour itself is the design.

Baked Lacquer

18 / 21 / 25 MM MDF CORE · MULTI-COAT SPRAYED LACQUER · MATT OR GLOSS

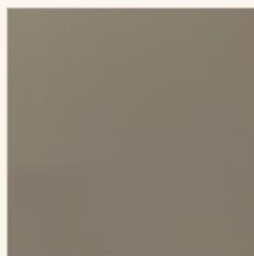

Moon White
wardrobe

Coral White
kitchen · wardrobe · wood
door · bathroom

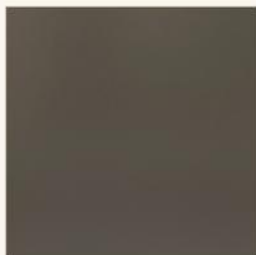

Drift White
wardrobe · wood door

Sand
wardrobe

French Grey
wood door

Elephant Grey
kitchen · wardrobe ·
bathroom

Antique Copper
wardrobe

FAMILY 04

High-Gloss UV

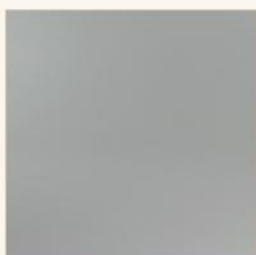

A cured high-clarity surface with real depth of reflection. Bounces light into a room, which earns its place in smaller or darker kitchens.

High-Gloss UV

BOARD CORE · UV-CURED COATING · HIGH-GLOSS OR SOFT-MATT SKIN

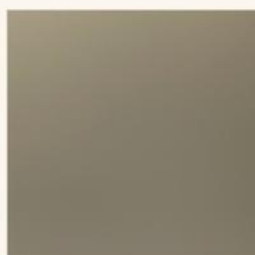

Tea White
kitchen

Cloud White
kitchen · wardrobe

Cream Soft-Matt
wardrobe

Snow Grey
wood door

Slate Blue
kitchen · wardrobe

Ink Grey
wardrobe

Specialist Surfaces & Carcase

POWDER-COAT · PET · VENEER · LEATHER · 11-LAYER PLYWOOD CARCASE

Surfaces for where a scheme needs something the main families cannot give it – a seamless coated edge, a true wood face, a tactile panel – plus the cabinet box itself, which is specified separately from the door.

Ash Grain
kitchen

Dove Grey
kitchen

Honey Oak
kitchen

Worktops

ENGINEERED QUARTZ · SINTERED STONE · NON-POROUS

The surface that takes the most punishment in the house. Non-porous, so wine, oil and vinegar sit on top rather than soak in. Two of these are zero-silica.

Pure White
kitchen

Drifting Cloud
kitchen

Auspicious White
kitchen

Wheat White

Upholstered Leather

Choosing.

See it in your own light

Every screen and every printed page shifts colour. Before anything is ordered we put the physical sample in your room, against your floor and your worktop, and look at it in daylight and at night. The sample is the decision, not this book.

Match the surface to the room

A wet room, a south-facing wall and a low-traffic dressing room are three different problems. We will tell you where a finish is the wrong choice, including when that means talking you out of the one you arrived wanting.

Availability changes

Ranges are added to and retired by the mill. We confirm that a finish is current and orderable at the point of quoting, and we will say so plainly if something you have chosen has been discontinued.

Would you like us to review your space
and guide you through the finishes?

Where each family belongs.

Counted from the approvals on every finish in this book — how many in each family the mill clears for each room. A low count is not a warning, but it is worth asking about before a finish goes somewhere wet.

FAMILY	KITCHEN	WARDROBE	BATHROOM	WOOD DOOR
Double-Faced Melamine	21	42	7	28
Vacuum-Formed & Pre-Finished Film	11	17	2	29
High-Gloss UV	15	14	6	7
Baked Lacquer	9	16	5	7
Powder Coating	4	10	—	—
PET Film	1	2	—	—
Wrapped PP Film	—	2	—	—
Upholstered Leather	—	—	—	2
Natural Wood Veneer	—	—	—	1
Quartz Worktops	10	—	—	—
Sintered Stone Worktops	2	—	—	—
Carcase Panels	4	—	—	—

Figures are counts of finishes, not a durability rating.

Living with it.

Every day

A soft cloth and warm water. Wipe spills when they happen rather than later — most staining is a timing problem, not a material problem.

Never

Abrasive creams, scouring pads, bleach, or anything solvent-based. They dull a matt finish and micro-scratch a gloss one, and neither comes back.

Heat

Use a trivet. Quartz is heat-resistant to roughly 300°F, but a pan straight off the flame can still mark it. Sintered stone takes more, but the habit is the same.

Water

Wipe standing water from joints and around the sink. The board behind any finish is the part that minds, and the edge is where it gets in.

Sunlight

Strong direct sun will move most colours over years. It is worth knowing before you put a dark lacquer on a south-facing run.

If something goes wrong

Tell us early. A lifted edge or a swollen corner caught in the first week is a repair; caught in the first year it is usually a replacement.
